# The Mochis' Love Corner

by Kasutocherry Chouko

I also want to thank Aqua Publishing and its editors for giving me free rein with the story or the intimate relationship between these two individuals. (But I guess if they gave an inch, I'd take a mile. I wanted to draw some really XXX scenes, but in the end, I didn't get my way.) I probably also embarrassed my editors in the process.

- "Must we waffle out the details about the Prince Albert?"
- "It's all right. Even if we don't portray it in detail, readers will know it's a type of body piercing."
- "Oh, okay. And another thing, the Prince Albert is actually a penis ring that passes through the urethra... like this. Go the part that is more vulgar than this angle... is this..."

- "[Er...] don't usually... read this genre..."
- "Oh dear... I am so sorry... I didn't know you weren't really into this..."

[In fact, I had ideas involving a lot more prose and sex. But I suppose I chickened out when I got worried that all those night scare readers [before I end off, I'd like to thank my assistants, friends, and family. And of course, most importantly, my readers - you are the reason I keep drawing. Thank you so much and please continue to support my work in the future.]

2002.6. (1081)

③ This is Akashi, in his school uniform. At 26, he was a long-distance runner who specialized in the 5000 and 10000 events. (Ironically, he was hooked on the "runner's high," a kind of porous or porous of the excessive paroxysmic tendencies which would surface later on in life.

## Ending Note

To new readers and to long-time supporters, thanks for buying the latest copy of *Heiku no Shikashu*! This manga belongs to the GJM genre, right from the first to the last page. I'm quite happy that it turned out this way. I really like the GJM genre. I've to admit though... I'm no good at the hardcore stuff. So, what I've drawn might come across as too soft and tender. To the GJM purists, my apologies!

[But I really think that GJM is impossible without complete trust between partners. It's pretty deep stuff. It might involve some degree of hurt and pain, but there is still love... lots of it. That was my motivation for creating this story. On the end, I think Akashi and Nobuaki turned out to be just the average dumb couple. If you seem so too, please forgive me!

③ Nobuaki seems, age 24, had a really, really hectic life. He discovered he was gay and had sadistic tendencies when he was in high school.
